

FOR IMMEDIATE RELEASE

Oxygen Education Launches Updated Website

The website now provides in-depth coverage of the online technical education training products Oxygen develops and the community college, industry, and workforce markets the company serves.

Indianapolis, Ind. – January 28, 2010 – Oxygen Education, LLC, a market leading developer of online content for technical education and workforce development, today announced the launch of its updated, more comprehensive website. The website provides more extensive coverage of the online training products the company develops and offers insight into how different types of customers implement Oxygen content.

Website visitors can now:

- Explore how **educational institutions, industry partners, and workforce development initiatives** implement Oxygen Education training content.
- Delve deeper into **Oxygen Education's Library** of ready-to-implement online training content in Advanced Manufacturing, Alternative Energy, Green Technology, Lean Techniques, Logistics and Supply Chain, and Fundamental Skills.
- Learn how content from the Oxygen Content Library can be combined with **Custom Content** to create **Blended Training** tailored to region- and industry-specific training needs.

"The need for high quality technical training content has never been greater. Industry needs workers trained for today's high tech jobs, and workers need training to stay ahead of evolving workforce demands and to advance on-the-job," said Phill Miller, director of Business Development, Oxygen Education. "The online availability of our simulation-based, interactive technical training provides every type of learner 24 / 7 access to the high quality training they need to succeed in today's competitive environment, and our updated website more thoroughly explains how we make that happen."

Founded in 2001, Oxygen Education perfected its online content development expertise creating online training for manufacturers. Today, Oxygen Education applies that expertise to developing content for advanced manufacturing and emerging growth industries and partnering with community colleges and industry and workforce trainers to create online training programs customized to local needs.

#####

About Oxygen Education

Oxygen Education, LLC develops high quality, interactive content for online technical education and workforce development. Our staff of experienced manufacturing and technology industry personnel works closely with our
