

FOR IMMEDIATE RELEASE

Oxygen Education to Present Manufacturing Education Workshop at ATMAE Conference

Demonstration of workforce development courses in Advanced Manufacturing, Green Technology, and Lean Manufacturing headline workshop agenda.

Indianapolis, Ind. – November 4, 2009 – Oxygen Education, LLC, a market leading developer of digital content for technical education and workforce development, today announced it will present a workshop at the **Association of Technology, Management, and Applied Engineering** (ATMAE) conference in Louisville, Kentucky in November. The workshop will showcase Oxygen Education’s advanced manufacturing education curriculum that is being used to train thousands of workers to succeed in the 21st century workforce.

Oxygen’s “Advanced Manufacturing Education for the 21st Century” workshop will be presented Friday, November 13, 11:25 a.m. to 12:20 p.m. in the Oaklawn Room of the conference hotel. The workshop will include:

- Discussion of the benefits of using online courses to address the challenges of workforce education.
- Demonstration of Oxygen Education’s interactive, competency-based content for technical education and workforce development.
- Introduction to new Lean Manufacturing and Green Technology courses.

Oxygen Education also welcomes conference attendees to visit the Oxygen Education exhibit #19 in the conference hotel’s North Ballroom to receive personal demonstrations of Oxygen’s online content for advanced manufacturing education.

The 2009 ATMAE Conference “Emerging and Green Technologies for Today’s Economic Challenges” is being held in Louisville, Kentucky November 10 - 14, 2009. The Association of Technology, Management, and Applied Engineering (ATMAE) is faculty, students, and industry professionals dedicated to solving complex technological problems and developing the competitive technologist and applied engineering workforce. ATMAE sets standards for academic program accreditation, personal certification, and professional development for educators and industry professionals involved in integrating technology, leadership, and design.
